DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is a liquid crystal display device comprising:

- A pair of glass substrates bonded to each other by a sealing material in the form of a frame;
- Liquid crystal held between the pair of glass substrates;
- A reflective layer formed on one of the glass substrates at the liquid crystal side; and
- An alignment film formed over the reflective layer at the liquid crystal side; where a glass surface of said one of the glass substrates has a roughened area of the roughened area being recessed relative to a planar area of the surface;
- The alignment film is formed over the recessed roughened area; and
- The sealing material is formed over the flat planar area.

The prior art of record does not disclose or suggest either in singly or in combination the following limitations and other elements in the claims:

- Reference Shimada et al. (US 5,805,252) do not disclose the glass substrates has a roughened area of the roughened area being recessed relative to a planar area of the surface; a reflective layer formed on one of the glass substrates; an alignment

film is formed over the recessed roughened area; and the sealing material is formed over the flat planar area.

- Reference Ukita et al. (US 6,061,112) do not disclose an alignment film formed over the reflective layer at the liquid crystal side; where a glass surface of said one of the glass substrates has a roughened area of the roughened area being recessed relative to a planar area of the surface and the sealing material is formed over the flat planar area.

Therefore, the above references do not disclose the claimed invention of present application and claims 1-5 and 10-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wai-Sing Louie whose telephone number is (571) 272-1709. The examiner can normally be reached on 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (571) 272-1705. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
